JEREMIAH E. BENIGNO

AUTOMATION & AI INTEGRATION DEVELOPER

Software Development | Python | OpenAI API | Make.com | API Integration | Cloud Deployment
Quezon City, Philippines | +63 968 542 4283 | benignojeremiah@gmail.com | linkedin.com/in/jeremiah-benigno-94359a323

PROFESSIONAL SUMMARY

Software Developer with experience maintaining production Python applications, integrating OpenAI APIs, and building Make.com workflows for CRM, email, and Google Workspace.

PROFESSIONAL EXPERIENCE

Operations & Systems Assistant | Ideal Ignite | May 2026 - Present

- Develop new features for a production AI-powered executive assistant on Telegram using Python and the OpenAI API. Troubleshoot integrations and deploy releases with Docker Compose on DigitalOcean Ubuntu.
- Maintain the AI assistant's daily schedule briefings, Makati weather updates, daily news reports, calendar reminders, and opt-in travel ETA from a shared location to a meeting destination.
- Design, build, test, and maintain Make.com scenarios with triggers, data mappings, filters, and error handling.
- Administer Google Workspace and HubSpot CRM, troubleshoot DNS and MX, and write IT SOPs.

IT Project Manager Intern | Highly Succeed Inc. | Feb 2024 - Jun 2024

- Tracked project milestones and SDLC tasks in Jira and supported sprint reporting and capacity planning.

IT Service Desk Analyst Intern | Reed Elsevier | Oct 2023 - Feb 2024

- Supported Active Directory access and shared mailboxes, triaged ServiceNow tickets, and wrote Tier 1 articles.

SELECTED PROJECTS

AI Executive Assistant & Business Automation Platform | Ideal Ignite | NICLD Law Firm

- Collaborate directly with the CEO to gather requirements and develop new features for a Telegram-based AI executive assistant. Maintain workflows for scheduling, daily briefings, calendar reminders, and travel planning.
- Enable natural-language requests in private and approved group chats with RBAC, OAuth 2.0, and audit logs.
- Deliver daily and on-demand iCloud schedules with Makati weather, quotes, and meeting links. Support 30-minute reminders, opt-in travel ETA, and departure alerts with Maps/Waze links.
- Maintain morning, afternoon, evening, and on-demand Philippine and world news reports with RSS filtering, publisher links, deduplication, retries, and missed-delivery alerts.
- Review ClamAV-scanned Word, Excel, text, and text-based PDFs with PDF page citations. Process image, audio, and video inputs. Support Drive search and previews, confirmed Docs/Sheets edits, edited Word/Excel copies, and file renames and moves.
- Automate Gmail inquiry intake and daily Telegram summaries with human review and draft replies. Support Google Tasks, approved ClickUp task creation, internal assignments, status and proof tracking, and group follow-ups.
- Integrated Google Calendar, Google Meet, and iCloud for conflict checks, invitations, event mirroring, and approved emails. Developed an internal Telegram pilot for meeting requests and approval previews.

Business Process Automation & Executive Reporting | Ideal Ignite

- Built Make.com workflows for WordPress lead capture, HubSpot-to-ClickUp routing, AI-assisted Gmail classification, Google Sheets logging, and executive digests. Configured WhatsApp Business Cloud integration.

TECHNICAL SKILLS

Development | Python, SQL, SQLite, JavaScript, HTML, CSS
AI Tools & LLMs | Claude Code (CLI), Codex, ChatGPT, Gemini 4 Argon, OpenAI API, function calling
Automation & APIs | Make.com, ClickUp, HubSpot, WordPress, Telegram Bot API, OAuth 2.0, CalDAV
Workspace Administration | Google Workspace, Google Admin console, Google Workspace APIs
Cloud & IT | Docker, Docker Compose, DigitalOcean, Ubuntu Linux, SSH, PowerShell, ClamAV, Jira, ServiceNow

EDUCATION

BS in Information Technology (Web & Mobile Applications) | FEU Institute of Technology | Oct 2024
Senior High School Diploma (STEM Engineering Track) | FEU Diliman | 2017 - 2019

CERTIFICATIONS & PROFESSIONAL LEARNING

Automation & Business | Business Analysis & Process Management (Coursera Project, 2026)
ClickUp Admin, Intermediate Workflow & Novice (2026) | Building Intermediate Zaps (Zapier Academy, 2026)
